## Full-Stack & Mobile Developer

📍 Casablanca, Morocco    ✉️ zouhairbegdar98@gmail.com    ☎️ +212 680 351 898    🔗 [BEGDAR8ZOUHAIR](#)    🌐 [Zouhair Begdar](#)

Full-Stack and Mobile Developer with 2 years of hands-on experience, passionate about building high-performance, user-centered digital products. Specialized in React Native, Node.js, and Flutter, I combine strong technical expertise, clean-code practices, and UX/UI sensitivity to deliver modern, reliable, and scalable applications.

Recognized for teamwork, problem-solving, and the ability to deliver under pressure, I'm seeking an environment that values innovation, quality, and continuous improvement.

## PROFESSIONAL EXPERIENCE

### ORA TECHNOLOGIES – Casablanca, Morocco

Mobile Developer | Oct 2023 – Oct 2025

- Led the development of Ora Cash, a secure and instant money transfer fintech mobile application.
- Enhanced the onboarding process and transaction flows, resulting in increased active users and retention.
- Developed high-performance features in React Native, integrating REST APIs (payment, authentication, notifications).
- Optimized rendering and API efficiency for better performance.
- Collaborated closely with design and backend teams to create a smooth and engaging experience.
- Implemented automated testing pipelines and proactive monitoring, reducing production incidents by 30%.

### SANLAM MAROC – Casablanca, Morocco

Full-Stack Developer (Internship) | April 2023 – July 2023

- Designed and developed a centralized dashboard to optimize data management and internal workflows.
- Used React (TypeScript) and ASP.NET Core in an Agile (Scrum) framework.
- Translated business requirements into robust front-end and back-end solutions, improving team efficiency.

### PROFONDE SOLUTION – Marrakech, Morocco

Full-Stack developer (Internship) | July 2022 – September 2022

- Developed a complete internal management web platform (Backoffice + Frontoffice).
- Stack: PHP, JavaScript, HTML5, CSS3, Bootstrap 5, Adobe XD.
- Contributed to the design, development, and optimization of interfaces for a seamless experience.
